

The file stores  
all of the data for  
one data store

```
data.txt
next id:7
rows:6
0 1 Fred
1 1 Wilma
3 0 321
4 1 Betty
5 0 43
6 0 73
```

Start with the  
next id value

next it records the  
number of rows

This section stores  
the details of each row

Each row saves its id, its "kind", and its data
