

The loop checks its condition to see if it is still in range (0 .. 2), and the loop body is repeated

This is the end of the loop body, so  $i$  is incremented to 2, and control jumps back to step 1

```
Terminal — bash — 80x24
Enter value 1: Ten
Please enter a number.
Enter value 1: 10.0
Enter value 2: -5
```
